Toronto coffee shop neighborhood clustering

- Results of running k-means clustering on coffee shop data

Toronto coffee shop neighborhood clustering

- Results of running k-means clustering on coffee shop data

Future work

- Include data from the suburban areas
- Map independent vs chain coffee shops
- Can also look at proximity to coworking spaces and tech start ups
- Find most similar city to Vancouver in the U.S.A. with a similar number of coffee shops (perhaps Seattle?)

Thank you
